

Updated March 9, '05

eChemExpo “Meet the Experts” *Technology Innovations Conference*

March 17, '05

MeadowView Conference & Convention Center, Kingsport, TN

9:00 AM-9:45 AM	Keynote Panel: Multiple Perspectives on Achieving Minimum Cost of Ownership <i>(CROCKETT AMPHITHEATER)</i>	
10:00 AM	Solutions Marketplace Opens, Hall A	
10:30 AM	Process Technology Track <i>(SALON 7 – HALL A)</i>	Analytical Technology Track <i>(SALON 8 – HALL A)</i>
	Applying “Total Cost of Ownership” to Plant Standardization Decisions - Rockwell Automation	GC/MS in the 21st Century; New Designs from Sample Input to Detector Output Screening Solutions: From Assays to Automation - Perkin Elmer LAS
11:00		
11:30	Process Controls Overview: New and Proven Technologies	Alternative Selectivity Using Polar-Embedded HPLC Stationary Phases
12:00 PM	New Ultrasonic and Radar Level Instrumentation - Siemens Energy & Automation	A New Resilient SPME Fiber Assembly Containing Coated Metal Fibers - Supelco
12:30	Wireless Systems Innovations - Phoenix Contact	Advances in High Speed HPLC: Practical Considerations for Improving HPLC Assay Speed - Agilent Technologies
1:00	The Application of Wireless Sensors - Honeywell	
1:30	Fundamentals of Pressure Relief Valves: A Tutorial - Farris Relief Valves	Process in a Box / New Glassless pH Electrode - Honeywell Analytical
2:00	Fundamentals of Filtration: A Tutorial - Pall Filters	Linear Ion Trapped Mass Spectroscopy in Biotechnology - Thermo Electron Corporation
2:30	NeSSI Generation II Technology is Here Today Parker Hannifin Corporation	
3:00	A New Thermal Mass Flowmeter for Liquids - Delta M Corporation	New Technologies in Bench Top GCMS - Shimadzu Scientific Instruments
3:30	Conference ends	
4:00 PM	Exposition Concludes	
Visit www.eChemExpo.com the following week for “Innovations Scorecard” Winners
